

# KEVIN.MURPHY BODY.BUILDER

Volumising Mousse

BODY.BUILDER is a product that you can layer onto the hair to create smooth big shapes.

Don't be afraid to use quite a lot of BODY.BUILDER as it is weightless and moisturising so you can go for it without any fear of a crunch.

The benefit of mousse is that it makes the tiny spaces between the hairs greater so essentially it makes the hair thicker and fuller.

BODY.BUILDER can be used to define waves on just about any hair length, type or texture.

BODY.BUILDER is particularly effective on fine hair and hair that is dry or damaged.

## Key benefits
