

KEVIN.MURPHY DAMAGE.MANAGER

Instant heat shielding spray

This is the centerpiece of the PROTECTION.LINE, containing the KEVIN.MURPHY X-HP™ Complex, Arnica Root Extract – a natural herb that helps prevent inflammation, and Allantoin, extracted from the roots and leaves of the comfrey plant which has long been used to expedite healing. Apply this weightless spray mist just before you use heated appliances. DAMAGE.MANAGER can be used in conjunction with all other KEVIN.MURPHY styling products. For instant protection without residue, simply spray on the hair just before you apply heat. DAMAGE.MANAGER can be sprayed directly onto dry hair just before using heated appliances.

Key features & benefits

Paraben free
Protects hair from heat at temperatures up to 220°C (428°F)
Weightless heat shield

Key Ingredients

Provides unrivaled defence against the intense heat generated by modern appliances while delivering impressive style hold. This product offers x-treme heat protection, protecting hair at temperatures up to 220°C (428°F).

KEVIN.MURPHY X-HP™ complex

This is extracted from the roots and leaves of the comfrey plant which has long been used to expedite healing and moisturising. A native of Europe, this member of the borage family contains a substance called allantoin that encourages cell growth and is easily absorbed through the hair to stimulate hair growth.

Allantoin

A natural herb that helps prevent inflammation and promotes healing. The soothing, moisturising and softening properties of this treatment, combined with its ability to promote healthy cell renewal, makes it an ideal component.

Arnica root extract
