Moisturising Smoothing Repairing
Naturally hydrating Cleansing
Adds elasticity and shine

Key Ingredients

Very moisturising for the skin and the hair and is a powerful antioxidant. Normally only used in skin care.

Rosa Canina (Rose Hip) Fruit Oil

Hydrates and softens the hair. It contains Phospholipids that are hydrophilic, meaning they are moisture loving and are attracted to water. They suck the moisture from the air around you and draw it onto the hair.

Evening Primrose Oil

Delivers moisture to dry or damaged hair from the roots to the very tips, repairing and protecting against weather damage, dryness and brittleness. It also absorbs quickly and completely into the hair and scalp to rehydrate without clogging the cuticle. It is particularly beneficial for processed and heat-treated hair. It restores lustre to damaged hair.

Shea Butter

Native to the Australian Northern Territory, this fruit has the highest concentration of natural Vitamin C of any known plant. Vitamin C stimulates production of Elastin and Collagen to help maintain hair's lustre and elasticity. Smooth the surface of the hair to lock in the moisture

Kakadu Plum

Anti oxidant rich and a natural source of vitamins

Bergamot Essential Oil

Helps to promote scalp hydration, which improves the condition of dry hair. Cleanses hair of excess oil as well as hydrate it naturally, bringing out it's natural shine.

Seaweed Extract
